President's Newsletter:

**HAPPY NEW YEAR** to all of the Licensed Racers, Geargrinders (Rally-ers) and last but certainly not least VOLUNTEERS!!!

Holy crap we are already halfway through Jan!

We had a great membership meeting and Board meeting to start the year! Thank you to all that attended and contributed!

As a reminder The Cascade Sports Car Club Board meetings will now be held on the 2<sup>nd</sup> Tuesday of each month by way of Zoom at 7pm. If you are not on the board but would like to attend, please feel free to send me an email and I will be happy to send the Zoom information. Please note the Board has a ton of items to get through at these meetings, especially in the early months of the year for planning, budgets, etc., this work is priority to ensure we have a smooth year ahead of us.

The Membership meetings will still be held on the 1<sup>st</sup> Saturday of each month but at an **earlier time of 6pm** at [Stark Street Pizza](#) @ [9234 SE Stark St, Portland, OR 97216](#). I hope to see more members attend as this is where we talk about the club and how to improve everything we do. Don't forget free M&Ms and door prizes are randomly given out for those in attendance!

We have the Volunteer Fair coming up in March, Chief meeting in February on Valentine's Day ;-). Please let our great Race Chair Mike Smith know if you didn't get the invite and you are a Specialty Chief. We are looking into including an Annual Tech Day after the Volunteer Day at PIR but it has not yet been confirmed.

If you haven't started, you better get those cars ready to go cuz time is ticking!

Your Prez, Robert Paxman!

## 2026 Cascade Sports Car Club MEMBERSHIP

January 2026

Dear Cascade Members,

CSCC memberships expire at the end of December each year. January is fast upon us so it's time to renew. Renew early and benefit fully from your yearly membership. The 2026 MSR pages are now up and running. For the few that have already renewed, thank you. For those who haven't, it's now time (unless you paid for two years starting the 2025 year). Check your current membership card. It has your expiration date shown. If you are unsure of your expiration date, send us a note and we can verify it. You can either renew through MotorsportReg or if you prefer you can download a form from the Cascade Sports Car Club website [www.cascadesportscarclub.org](http://www.cascadesportscarclub.org) and mail it to us with a check. The form is found under the "Membership" tab. There is a drop down with the various forms shown. The web site also has a link that goes directly to the renewal page at MotorsportReg (same as shown below). When renewing, please verify that all your contact information in MotorsportReg is correct. The club is increasingly using electronic communication and having the correct contact information is crucial. Your new membership cards will go out soon after we get notification of payment.

Link to the 2026 MotorsportReg renewal page is shown below. <https://msreg.com/2026CSCCRENEWAL>

Thank you, and we look forward to seeing you soon.

# 2026 ICSCC Spring Meeting Report

ICSCC's new President, whom we know quite well, moved the meeting along and all the business was covered in under three hours (to be fair there wasn't a lot to cover)!

2026 ICSCC President - Brian Anderson

2026 ICSCC Vice Presidents - Steve Powell and Rick Bostrom

2026 ICSCC Race Steward - Steve Paquette (still searching for an assistant steward)

Most of the other ICSCC positions have carried over from 2025.

## **Important dates: RATS Meeting - March 7, 2026 (Online meeting)**

As reported after the Fall meeting, there has been a re-organization of the race groups. If there's a doubling up of reserved car numbers due to the change, the driver with seniority (licensed the longest) will be given priority. Available car numbers will be available to view on the ICSCC website coming this year. Also, the length of time has been extended slightly for a driver to be able to retain their reserved car number (End of year vs. March 1)

## **2026 ICSCC RACE GROUPS**

Group 1: SPO,M,U, ST1, SM, CSM, HT, CR

Group 2: PRO3, PRO7, PRO44, ITX

Group 3: CLUB CHOICE

Group 4: GT1,2,3, AS, ITE, SST, ST, SE46

Group 5: ITA,B,C,S, CT4, GTL, E-F-H IMP. PRODUCTION, ST2, ST3, ST4, ST5

Group 6: FV, FL, B-C-D-E-F SR, CC4, CF, FF, FA, FM, FC, NOVICE O/W

Group 7: NOVICE CLOSED WHEEL

## **Other notes:**

- 1) There were a couple of Policy and Procedures updates, most of which focused on Officer reimbursements.
- 2) It's now going to be easier or more streamlined for non-ICSCC licensed drivers to get an ICSCC license if they desire so they can score ICSCC Championship points.
- 3) The 2026 ICSCC schedule has been finalized. No changes from the tentative schedule with the exception that IRDC has added a non-points weekend at the Ridge on October 17/18, 2026.
- 4) Victoria Motorsports is no longer an Affiliate Club.
- 5) Helmets - There has been some confusion. SA2015 are still okay for at least 2026.
- 6) The ICSCC License application should be available on [Motorsportreg](#) soon (probably by the time the newsletter is distributed). If needing a physical, the form for the doctor to fill out is already available of the [ICSCC website](#) (this form is not year specific anymore).

## Feb. 20-21 Rally School

Jumpstart your 2026 rally season by attending Rally School. Learn about road rally rules, procedures and protocols. Find out how to interpret route instructions. Pick up tips for success. The Friday evening virtual meeting and the practice rally on Saturday are designed to teach you how to play the game of road rally. If you are a rally veteran, Rally School is a great way to tune up rusty rally skills.

### About Rally School

Rally School is two-part. The first part is virtual Rally School on Friday, Feb. 20, starting at 7 p.m. This meeting is expected to last under two hours.

The second part is the practice road rally on Saturday, Feb. 21, starting at 10 a.m. The rally starts in northwest Portland and ends in Forest Grove

The Rally School rally is about 100 miles long and takes a bit over three hours to complete, including a scenic mid-rally break.

This is a lightly trapped rally, meaning it includes some simple rally challenges. If you pay attention during the virtual Rally School, you will ace these challenges.

There will be time for follow-up discussion after the rally at the ending location restaurant.

### Registration

Entry team includes a street-legal vehicle, licensed and insured driver, navigator, and a smart device (cell phone or tablet) running the Competitor Richta GPS Checkpoints app (app is free).

Entry fee is \$25 per team for CSCC members  
\$35 per team for non-members

## REPORT FROM #47

*Report from Team Norsk Racing*

I added new content to my increasingly vast supply of bloopers during the season-ending enduro at PIR. We failed to complete the full 4hrs we were competing in due to contact with the wall, but we still had great fun in the variable conditions. Racing open cockpit in the rain? No problem – just adds to the experience! I'm happy to report that the guest driver in my car suffered no injury during the mishap (moment before impact in picture), and my hope is that this is not by chance, but by design.

Having crashed on average 2-3 times per year during my brief racing "career", I have learned a few things...

- The safety inspections are not a hassle or obstacle to minimally overcome, but an invaluable service to assist drivers in preparing a safe car. Yet, passing inspection is not a substitute for your own due diligence.
- Race cars can be fixed (or replaced). People are a little more fickle in that regard. The car is less important than the driver.
- Corner workers are angels that serve to protect and help.

I team up with guest drivers for longer races (Lee has been my enduro partner for a couple years). I would never allow a guest to drive my car if I did not have every confidence that it affords great protection. I would never drive in a car that I don't have sufficient confidence in to allow a guest to drive in. Ask yourself if you'd let your loved one venture out on track in your race car.

'Tis the season for repairs and prep (I have a bit of work to do during the off-season to entertain myself). In addition, it's also a great time to closely scrutinize your safety equipment. Although helmets are certified for 10 years, I prefer to purchase helmets that expire in 5 years (while still available) since they are a better deal, I'm forced to refresh them more frequently, plus I don't really want to stick my head into my helmet after 5 years of sweaty use anyway. HANS devices, seatbelts, and fire bottles all have finite service life, so don't neglect to check the dates and condition of all your critical safety gear. When/if you need it, you will *really* need it.
